

4 STEPS TO MAKE YOUR HOME MORE ENERGY EFFICIENT

North Chester County
**CLEAN ENERGY
FUTURE**

1 Assess the efficiency of your home.

pecoSM

Use's PECO's in-home or virtual energy assessment.

For more information, go to:

peco.com/WaysToSave/ForYourHome/Pages/EnergyAssessment.aspx

Use's ENERGY STAR's Home Advisor for custom recommendations and project tracking.

Custom recommendations: energystar.gov/campaign/assessYourHome
Compare your performance: portfolioenergymanager.energystar.gov/pm/hey

2 Reduce energy consumption in your home.

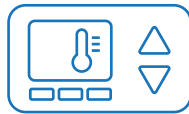

Visit energystar.gov/campaign/waysToSave for all actions.

Turn off lights and appliances when not in use.

Use smart power strips, which help automatically turn off devices not in use.

Use a programmable thermostat, to only heat or cool when needed.

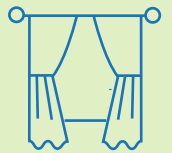

HIGH IMPACT ACTIONS

Use a ceiling fan instead of air conditioning.

Use drying racks instead of the clothes dryer.

Use drapes to reduce heating from sun.

3 Increase the efficiency of your home's energy-using equipment.

Choose energy-efficient products when it comes time to replace equipment and appliances. ENERGY STAR-rated products typically have no to very little premium cost over non-rated products, but save you money over time by using less energy.

Use LED lights.

PECO provides instant discounts for qualified LED lights!

Upgrade windows and doors to ENERGY STAR windows and doors.

Use ENERGY STAR electronics and appliances.

Look for the ENERGY STAR label on:

- audio and video
- phones
- cable boxes
- wireless routers
- variable-speed pool pumps
- refrigerators
- washing machines
- clothes dryers
- dishwashers
- dehumidifiers

4 Increase the efficiency of your home's envelope.

Increase sealing and insulation.

Sealing and insulating is often the most cost effective way to improve efficiency and comfort.
