### 5:15 pm | Success Stories and Challenges

Each municipality attending will be asked to share recent successes and express challenges to be discussed later in the program. Topics include:

- **Density and development, how much is too much and who gets what?**

Most urban centers are growing, some residents like it, some do not. Demands for housing continue to increase. Let's discuss the opportunities and challenges of growth.

- **Diversity of people, places, and things.**

All urban centers have a diversity of land uses (or needs), people (ethnicities, cultures, ages), events, institutions (libraries, parks), and agencies (government, nonprofits). Let's discuss the good aspects of your community and what could be added to meet diverse needs and preferences.

- **Direction of plans, processes, funding, review, and projects.**

All urban centers have plans and goals. Let's discuss planning needs, funding needs, beneficial coordination or collaboration, and other items needed to move communities forward.

### 6:20 pm | Open Discussion and Addressing Challenges
