March 10, 2017

Mark Parker  
Engineering Manager  
Eastern Shore Natural Gas Company  
1110 Forest Avenue, Suite 201  
Dover, DE 19904

**Re: Authorization to Commence Service**

Dear Mr. Parker:

I grant your February 24, 2017 request, as supplemented on March 3, 2017, for Eastern Shore Natural Gas Company (Eastern Shore) to place into service the Delaware City Compressor Station in New Castle County, Delaware, as part of the White Oak Mainline Expansion Project. Your request is in compliance with environmental condition 9 of the Commission's *Order Issuing Certificate* (Order) issued to Eastern Shore on July 21, 2016, in the above-referenced dockets. This authorization is granted on the basis of Eastern Shore's most recent weekly construction status report and our field inspection conducted on February 2, 2017. We find that Eastern Shore has adequately stabilized the construction workspace within and around the compressor station, and that restoration is proceeding satisfactorily.

I remind you that Eastern Shore must comply with all applicable remaining terms and conditions of the Order. If you have any questions, please contact Gertrude Johnson at 202-502-6692.

Sincerely,

Rich McGuire, Director  
Division of Gas – Environment  
and Engineering
